

★(Remember, even if he is not as Conservative as you would like, **he must at least vote for a Republican for Speaker.**)

A DINO in the Socialist-dominated Democrat Party/Coalition WILL vote for a Socialist for Speaker.

A RINO in the Conservative-dominated Republican Party/Coalition WILL vote for a Conservative for Speaker.

**We must teach conservatives: ultimately there is no such thing as Independent or Non-Partisan, because the Speaker's Gavel is Absolutely Partisan.** To vote for, or promote, an Independent or Non-Partisan is another Coalition Buster.

**We must teach conservatives there is absolutely no difference between a "Party" and a "Coalition".** These are interchangeable terms.

**We must also teach our Conservative brethren to stop treating our Party/Coalition Leadership as something outside of our control.** We must stop talking about "The Party" as if it were a Foreign Power or a Secret Society. **The leadership of our Coalition/Party is whoever we want them to be.** If the current leadership is not agreeable, then that is OUR FAULT -- NOT THEIRS.

We are succeeding all over the State and Nation winning more and more of the leadership positions back to where they belong. We do this by running for the County and State Central Committees.

I recommend that for any Voter's Guide designed by a Conservative group who wants to be non-partisan in their endorsements, ask this question in as many ways necessary to teach the voters how critical the Speaker's Gavel is:

"You say you are in favor of limited government. Will you then swear to vote for just such a Speaker of the House, even if it means voting across Party lines?"

**To be completely effective, we must win the Gavel from the County Central Committee, to the State level, to the National level.** This starts by winning the majority of the County and State Central Committee positions. Patriots will then endorse freedom-loving, limited government candidates. This process of winning the Gavel must include winning each State Speaker of the House position, and of course, winning the Speaker of the House Gavel in the US House of Representatives.

If we are serious about establishing liberty in our country, we must think and act Strategically as well as Tactically. Our Strategy is the same as every successful project - To Continuously Improve Our Position.

These two complementary tactics are repeated, one after the other, every two years.

Tactic A: In the Primary Election we strengthen our Tea Party position within the Republican Party by becoming Precinct Executives. (This is how we become Candidate Endorsers )

Tactic B: In the General Election we strengthen our Republican position within the government by getting out the vote for every Republican possible. (This is how we get the Gavel )  
If we happen to elect a RINO or two, we'll take care of that at the next Primary.

**We must get the Gavel !**

## PROJECT GAVEL

It is vital to thoroughly understand Coalitions, the purpose of Coalitions, and Coalition Busters.

A **Coalition** is individuals joining together to achieve a common goal.

In politics, **the purpose of a Coalition is to win the Gavel.**

**Coalition Busters** are people or tactics that cause the coalition to fail to win the Gavel.

Contrasting the European Parliamentary system to the U.S. System illustrates why Coalitions are more difficult to maintain in the U.S.

### In a Parliamentary System

★ A dozen or more Parties representing single issues run for representation in Parliament.

★ After the General Election, the major parties court the minor parties to form a Coalition.

★ The Coalition with a majority of individual members becomes the "Ruling Party". ("Party is just another name for "Coalition").

★ The Ruling Party (the largest coalition), determines who will be the "Prime Minister" (equivalent to our Speaker of the House).

★ Until the next election, the Prime Minister controls the Gavel (in other words, who may speak) and the Calendar (which bills will be voted on). **This same king-like power is in the hands of our Speaker of the House.**

★ **The majority in the Coalition defines the whole Coalition.**

★ Each minor party in the ruling coalition can expect to receive some part of their agenda enacted. (This is the whole purpose for the Coalition/Party in the first place.)

#### **In America's System:**

★ Two Coalitions/Parties compete for a majority of the vote.

★ Winner takes all. **The Winning Party decides who the Speaker of the House will be**, as well as All of the Sub Committee Chairmen. **There is no further opportunity to form coalitions to win The Gavel.**

★ Until the next election, the **Speaker of the House controls the Gavel (who may speak) and the Calendar (which bills will be voted on)**. This is the same as the Parliamentary system's Prime Minister.

★ **In our system the purpose of each Party (Coalition) is to win the election of the Speaker of the House.**

★ **Only one vote in the House is always straight down Party lines. That is the vote for Speaker of the House.**

★ In our two Party/Coalition system, Coalitions are formed Before elections -- not afterwards, as in the Parliamentary system.

★ For our system to work properly, Coalitions of single issue voter groups must roll up into one of the two main Coalitions or "Parties" as we call them. They must either join with the Republican or Democrat Party in order to accomplish their goals.

**Socialists understand and implement our system much better than we Pro-Americans.** An example of Coalition Busting is the tactic the Socialists use in running Conservative Democrats in Conservative districts. **They know that this DINO (Democrat in name only) will NEVER get the chance to vote on his conservative bills because those bills will NEVER come up for a vote as long as the Socialists dominate the Democrat Coalition and control the Speaker's Gavel.**

They know that the DINO has to vote for a Democratic Speaker. So they have successfully tricked Conservatives into voting for a "good" Democrat when in reality they have gained one more vote for the Socialists to win the Gavel. After the Socialist contingent in the Democrat Party wins the Speaker's Gavel, they could not care less what the DINOs think.

Too many Americans believe that a DINO is better than a RINO. They believe this because they do not know that **the purpose of the Party/Coalition is to win the Gavel.**

We must teach our fellows that **we must focus on the Gavel.** Any word or deed that weakens our drive to win the Gavel must cease.

**The only question for any candidate for any office must be "For whom will you vote to wield the Gavel"?**

Any candidate questionnaire must be used to teach voters that they are not voting for someone with certain beliefs. **Ultimately, it doesn't matter what the candidate believes, it only matters what the Speaker wielding the Gavel believes.**

As Americans, our main problem is not the Socialist Coalition in the Democratic Party. **Our main problem is our own lack of understanding of who, and what, the Speaker of the House is, and what Coalitions really are.**

If we are to enact liberty we are going to have to learn this and learn fast.

**We, as Americans, must:**

★ Decide, well ahead of time, who we want to be Speaker. We must **forget the President and concentrate on that Speaker's Gavel.** We must refuse to be led around by the nose by the media (theirs and ours).

★ Prior to every Primary election we must ensure that our County and State Central Committees endorse only candidates that **pledge to vote for our choice for Speaker.**

★ In the Primary, vote for only ONE Candidate that pledges to vote for our choice for Speaker. (NEVER SPLIT A VOTE because this is a Coalition Buster.)

★ In the General Election vote for the Republican Party/Coalition Candidate.
